

## *In medias res...*

Eller: Hur *kulturen* hänger ihop med *naturen* enligt Landskapskonventionen (fritt, pan-europeiskt perspektiv enl Europarådet, ENTO, m fl)!

Figure 1: Maslow's triangle adapted to show requirements for physical and ideal development (from Van Mansvelt and Van der Lubbe, 1999)

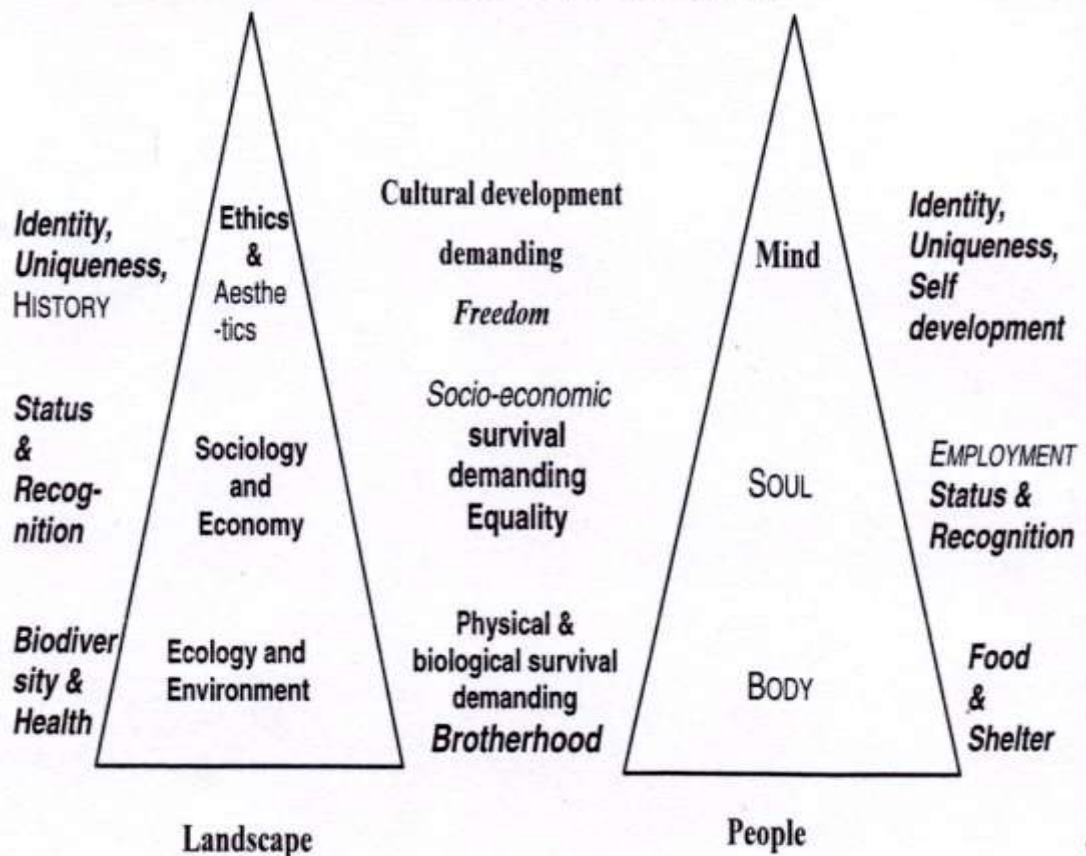

*Glöm inte mötet i mitten: demokratins kärna...*

Det fick de båda holländarna fram genom att låta de båda trianglarna mötas, People” och ”Landscape”, var och en från sitt håll... Demokrati i form av ”checks and balances”...

*Fig : ”Then Maslow noted that neither salary, position, political appreciation, housing nor whatever else makes humans completely happy. Only the feeling that they realize their true inner being, that they manage to develop their inner potential makes people feel good. It is this potential inner-being that makes people up in the night, on a long walk or on an unforeseen moment, asking: was this the life you were born for? JDvM*

The scheme below shows links between People and Landscape organisms
